AGENDA FOR THIS 3 PART WEBINAR SERIES

- Digitise Processes across your organisation
- **Build low-code** apps that modernize processes and solve tough challenges.
- Enhance performance and efficiency
- Protect your work force
SESSION ONE

Our first session will be a deep dive session into the PowerApps and will cover the following:

- Low Code Evolution
- Why Power Platform?
- Power Platform Overview
- Examples/Use Cases
- Creating a canvas app vs model-driven app

Which is Presented By:
Arsenio of Dicker Data
SESSION TWO

Improve & automate business processes with PowerApps

- The possibilities with PowerApps is limitless, Clade has helped many organisations improve and automate business processes for Health and Safety Managers. In this session, you will see real examples of how Clade has used PowerApps to quickly turn over apps that improved safety processes such as:

  - Record inspections
  - Record Health and Safety Hazards
  - Create and link work orders

- In addition, Clade will also showcase how PowerApps can improve mundane processes such as:

  - On boarding and off boarding
  - leaves/ travel/ expense forms
Return to the workplace with confidence

The Power Platform return to the workplace pre-built solution is a comprehensive, end-to-end set of modules that help organisations plan, coordinate, and manage the return to the workplace with confidence, helping to ensure the health and safety of employees. The solution is easily customisable, with fast deployment, and built on a secure and compliant platform. Together, the modules provide an end-to-end experience for executive leaders, facility managers, employees, managers, as well as health and safety leaders in this, third and final session, Clade will showcase Microsoft's prebuilt solution that is helping organisation get back to business faster. Clade will demo key features such as:

- Location readiness
- Employee Health and Safety Management
- Work Place Case management
