CEO MESSAGE

ALP presents its workplace health and safety policy

Dear Colleagues,

So far in the 2016 Federal election campaign, the issue of workplace health and safety has only been mentioned in the most general terms, so the SIA invited the four major parties – Liberals, Nationals, Labor and the Greens - to articulate their WHS policies and answer some key questions.
Only the ALP responded by the deadline.

The parties are not entirely silent on health and safety, usually addressing the issues to some extent within their industrial relations policies - and the Greens have some unique WHS policies on their website. However, given the impact of workplace injury, illness and death on the economy, Australian families and the wider community, the lack of response from three of the four main political parties is disappointing.

Last year, somebody died in an Australian workplace every 48 hours, and nearly 30 people were severely injured and disabled every single day. The social and economic costs to the community are massive. This issue is too important to be sidelined.

The issue of health and safety has become entrenched in the politics of industrial relations, and that’s something we as a profession need to seek to influence. Health and Safety isn’t just an industrial relations issue – it’s a public health, social and economic issue.

**Click here** to view the ALP’s Health and Safety policies.

Have a great week!

Kind Regards,

Dave Clarke

Have you considered OHS Professional Certification?

Ongoing professional development is a cornerstone of every long, rewarding career. Are you ready to take the next step on your career path? Have you considered Certification?

Our OHS Professional Certification program is offered to Members of the Safety Institute of Australia. SIA Certification sets rigorous standards of education, experience, demonstrated knowledge and skills, and evaluates applicants against those standards. It gives increased confidence and guidance to employers, clients, workers and the community as to the competence and standing of the person providing professional advice.

The assessment is based on a combination of formal qualifications, experience & capability. There are 5 categories of certification and each category contains specific criteria and requirements. To apply for certification, please follow the instructions outlined HERE.

To find out more about OHS Professional Certification and how it might benefit you in your career, visit our website or contact Marija at certification@sia.org.au.

NATIONAL SAFETY CONVENTION - SPEAKERS ANNOUNCED

In the lead up to the SIA National Safety Convention on September 5-8, the Safety Institute of Australia announces the second raft of keynote speakers for the annual conference. The SIA National Safety Convention brings together stakeholders in the health and safety profession, including the profession, regulators, business and unions, to talk...
about what’s working with existing approaches, as well as new ideas and leadership.

This year, some of the best national and international speakers have been invited to explore the theme of **Disruptive Safety**. The second plenary session at #SIAConvention16 will challenge delegates to cast their critical gaze forwards to the **Future of Work**. Featuring forward-thinking presentations from Bernard Salt, Peter Gahan and Richard Coleman, the session promises to spur on much debate and discussion.
